TRACTORS

NUMBER ONE...WHERE THE TRRR-ACTION IS!

*year
'round*

Sears all-year Riding Tractors have the pep and performance that let you zip through lawn and garden care . . . whip the worst of winter's weather, too. This all-around-the-home, all-through-the-year versatility lets you get more done . . . with more time for

fun. Your Sears Tractor is engineered for long-lasting convenience and comfort. Your investment in Sears quality assures more value, more enjoyment. With a complete line of custom attachments you can handle a wide variety of jobs all around your home.

AGILE...VERSATILE...
and FUN!

You'll find as many helpers as jobs for your new Sears Tractor because it's so easy-handling and designed for safety, too. Once you remove the key, the children can't start the tractor . . . another Sears safety feature.

SUPER 12 ... POWER-PLUS PERFORMANCE

There's extra ruggedness and reliability built-into this all-new, compact, super-powered Sears Super 12. You'll find extra features for more convenience and more comfort built into this tractor. The big 12-hp engine with patented electric Super-Start assures all-weather starts, all-weather operation. Compact maneuverability — 26 $\frac{3}{4}$ " inside turning radius, with exclusive rear wheel width adjustment to fit power and balance to each job. Easy speed selection from .75 (creeper) to a fast 6.00 M.P.H. (road speed). Sears' extra-low speed eliminates need for, and cost of, additional power-take-off, pulley, underdrives or expensive transmission modification most other tractors require for operating attachments. Big, new 48-inch rotary mower has triple, high-lift blades ... gets more done—faster (32 25103).

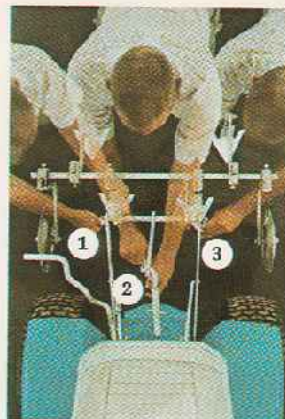

SEARS SUPER 12-HP ELECTRIC START 32 2512

DIMENSIONS

Wheel base	43 $\frac{3}{8}$ "
Over-all length	65 $\frac{1}{8}$ "
Over-all height	39 $\frac{3}{8}$ "
Over-all width	30-34"
Rear wheel tread	25-28"
Front wheel tread	27-9/16"

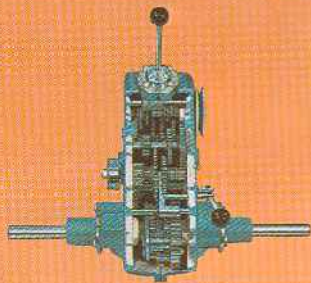

Long-life, heavy-duty engine is a 12HP, 4-cycle Craftsman with a 27.66 cu. in. displacement; Timken tapered main bearings, positive-splash type lubrication.

You can "corner" this one just like a sports car ... trim in tight in the hard-to-reach areas ... cut us close as you like without scalping or skipping.

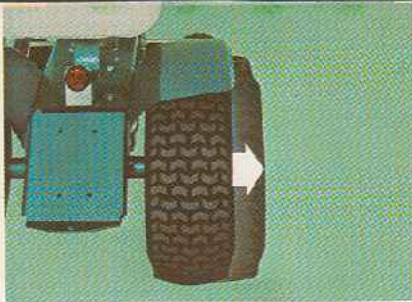

Sears exclusive Three-Point Hitch lets you attach any implement in less than one minute ... turnbuckles adjust depth and leveling.

See Sears complete custom-matched attachments for Super-12 on last two pages.

Rugged six-speed transmission with all gears of cut alloy steel—double heat treated . . . the finest construction possible.

Exclusive rear wheel tread is adjustable from 25" to a wide-track 28" (center to center). Over-size Turf-saver rear tires, extra wide Turf-saver front tires.

You ride in style and complete comfort with new foam-cushioned contour seat. Extra-wide fenders are sporty and standard.

SEARS SUPER 12 the extra-quality features that mean extra-value for you

Easy-shifting, easy speed selection (.75 to 6.00 mph). Use vertical lever to shift from neutral into 1st, 2nd, 3rd, or Reverse gear; horizontal lever for high or low speed in any gear.

Cluster controls for one-hand operation . . . include light switch, keystore switch, extra-large, airplane-type throttle. Note handy cigarette lighter (standard) and ammeter. Headlights, tail light, and visual gas gauge are de luxe features.

Over-sized running boards are one of the extra convenience features that are standard on the Sears Super-12. Both rear wheels brake at same time—avoid skids, turf-tearing—assure safe, sure stops.

popular!

SEARS CUSTOM 6

Here's a speedy, sporty Tractor designed to give you years of reliable performance . . . all through all seasons. So easy-riding, easy-operating that it's a favorite of the whole family. Stick shift plus foot-operated combination clutch and brake pedal make it easy to select any of four forward speeds and reverse. Extra-low speed in first gear assures proper power for use with rotary snow plow, rotary tiller, bulldozer/grader. An all-round and rugged Tractor . . . 6 HP Craftsman engine, 13.55 cu. in. displacement.

All tires have exclusive Turf-saver tread; rear tires are extra-wide and rear wheel width is adjustable. Headlights and tail light are standard on electric start model.

Custom 6 HP

Electric Start 32 2502

Custom 6 HP

Rewind Start 32 2501

Auto-type stickshift is easy to use in selecting any of four forward speeds (1.1 to 5.5 mph) or reverse. Engine cannot be started when key is removed. Cluster controls for one-hand operation.

Combination clutch and brake pedal is foot-operated. Foot rests for added comfort during steady-speed operating.

Special lock on brake for parking. And, you ride comfortably on a plastic foam cushion seat that is spring mounted. New channel-type frame is heavy duty.

Cooler, cleaner operation is assured with exclusive rotating screen (electric start model) or exclusive "poly-donut" pre-cleaner (rewind). Shown with extra protective screen in place.

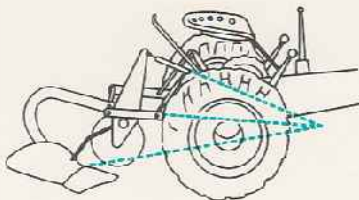

Exclusive Turf-saver tread means more traction, more protection for your turf. Rear tires are extra wide. Fenders are standard.

DIMENSIONS

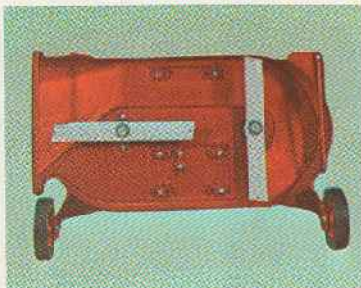

Wheel base	43"	Over-all width	35"
Over-all length	62"	Front wheel tread	28"
Over-all height	36"	Rear wheel tread	26"

EXCLUSIVE 3-POINT HITCH

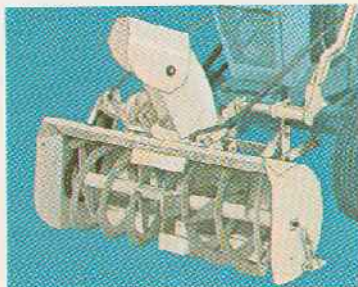

Full-functioning three-point Hitch provides quickest, easiest hook-up of Sears attachments . . . in less than one minute (no bolts or wrenches). Special turnbuckles provide quick depth and leveling adjustments . . . implements are lowered or raised easily from driver's seat. Just 3 snap-on pins for hitch-up.

CUSTOM 6 HP EASY-ON, EASY-OFF IMPLEMENTS

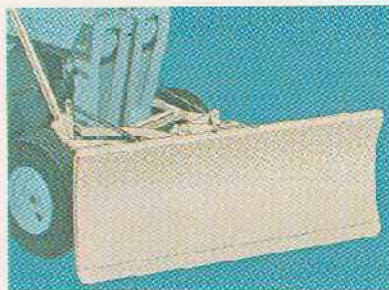

36" ROTARY MOWER

Dual blades operate at 3600 rpm, 14,400 cuts per minute . . . literally "vacuums" lawn. Safety runners prevent scalping . . . cut-height adjustment from 1 $\frac{3}{8}$ " to 3 $\frac{3}{8}$ "

34" ROTARY SNOW PLOW

Clears a full 34" wide, one-hundred foot path in just 60 seconds. Over-size discharge chute controlled from driver's seat—throws in 180° arc up to 15-20 feet. Anger operates at 643 rpm, eliminates clogging.

12" BULLDOZER/SNOWBLADE

Takes the back-ache and break out of snow removal. Formed steel blade (42" x 18") clears a 42" path (straight) or 35" path (angled). Blade angles right or left—up to 33° . . . moves straight up or down (up to 5 $\frac{1}{2}$ "). Angle controlled from seat with posi-action rods.
